

# AI-Powered TPRM Built for Global Regulatory Compliance

Align every stage of third-party risk management with international, regional, and industry-specific mandates.

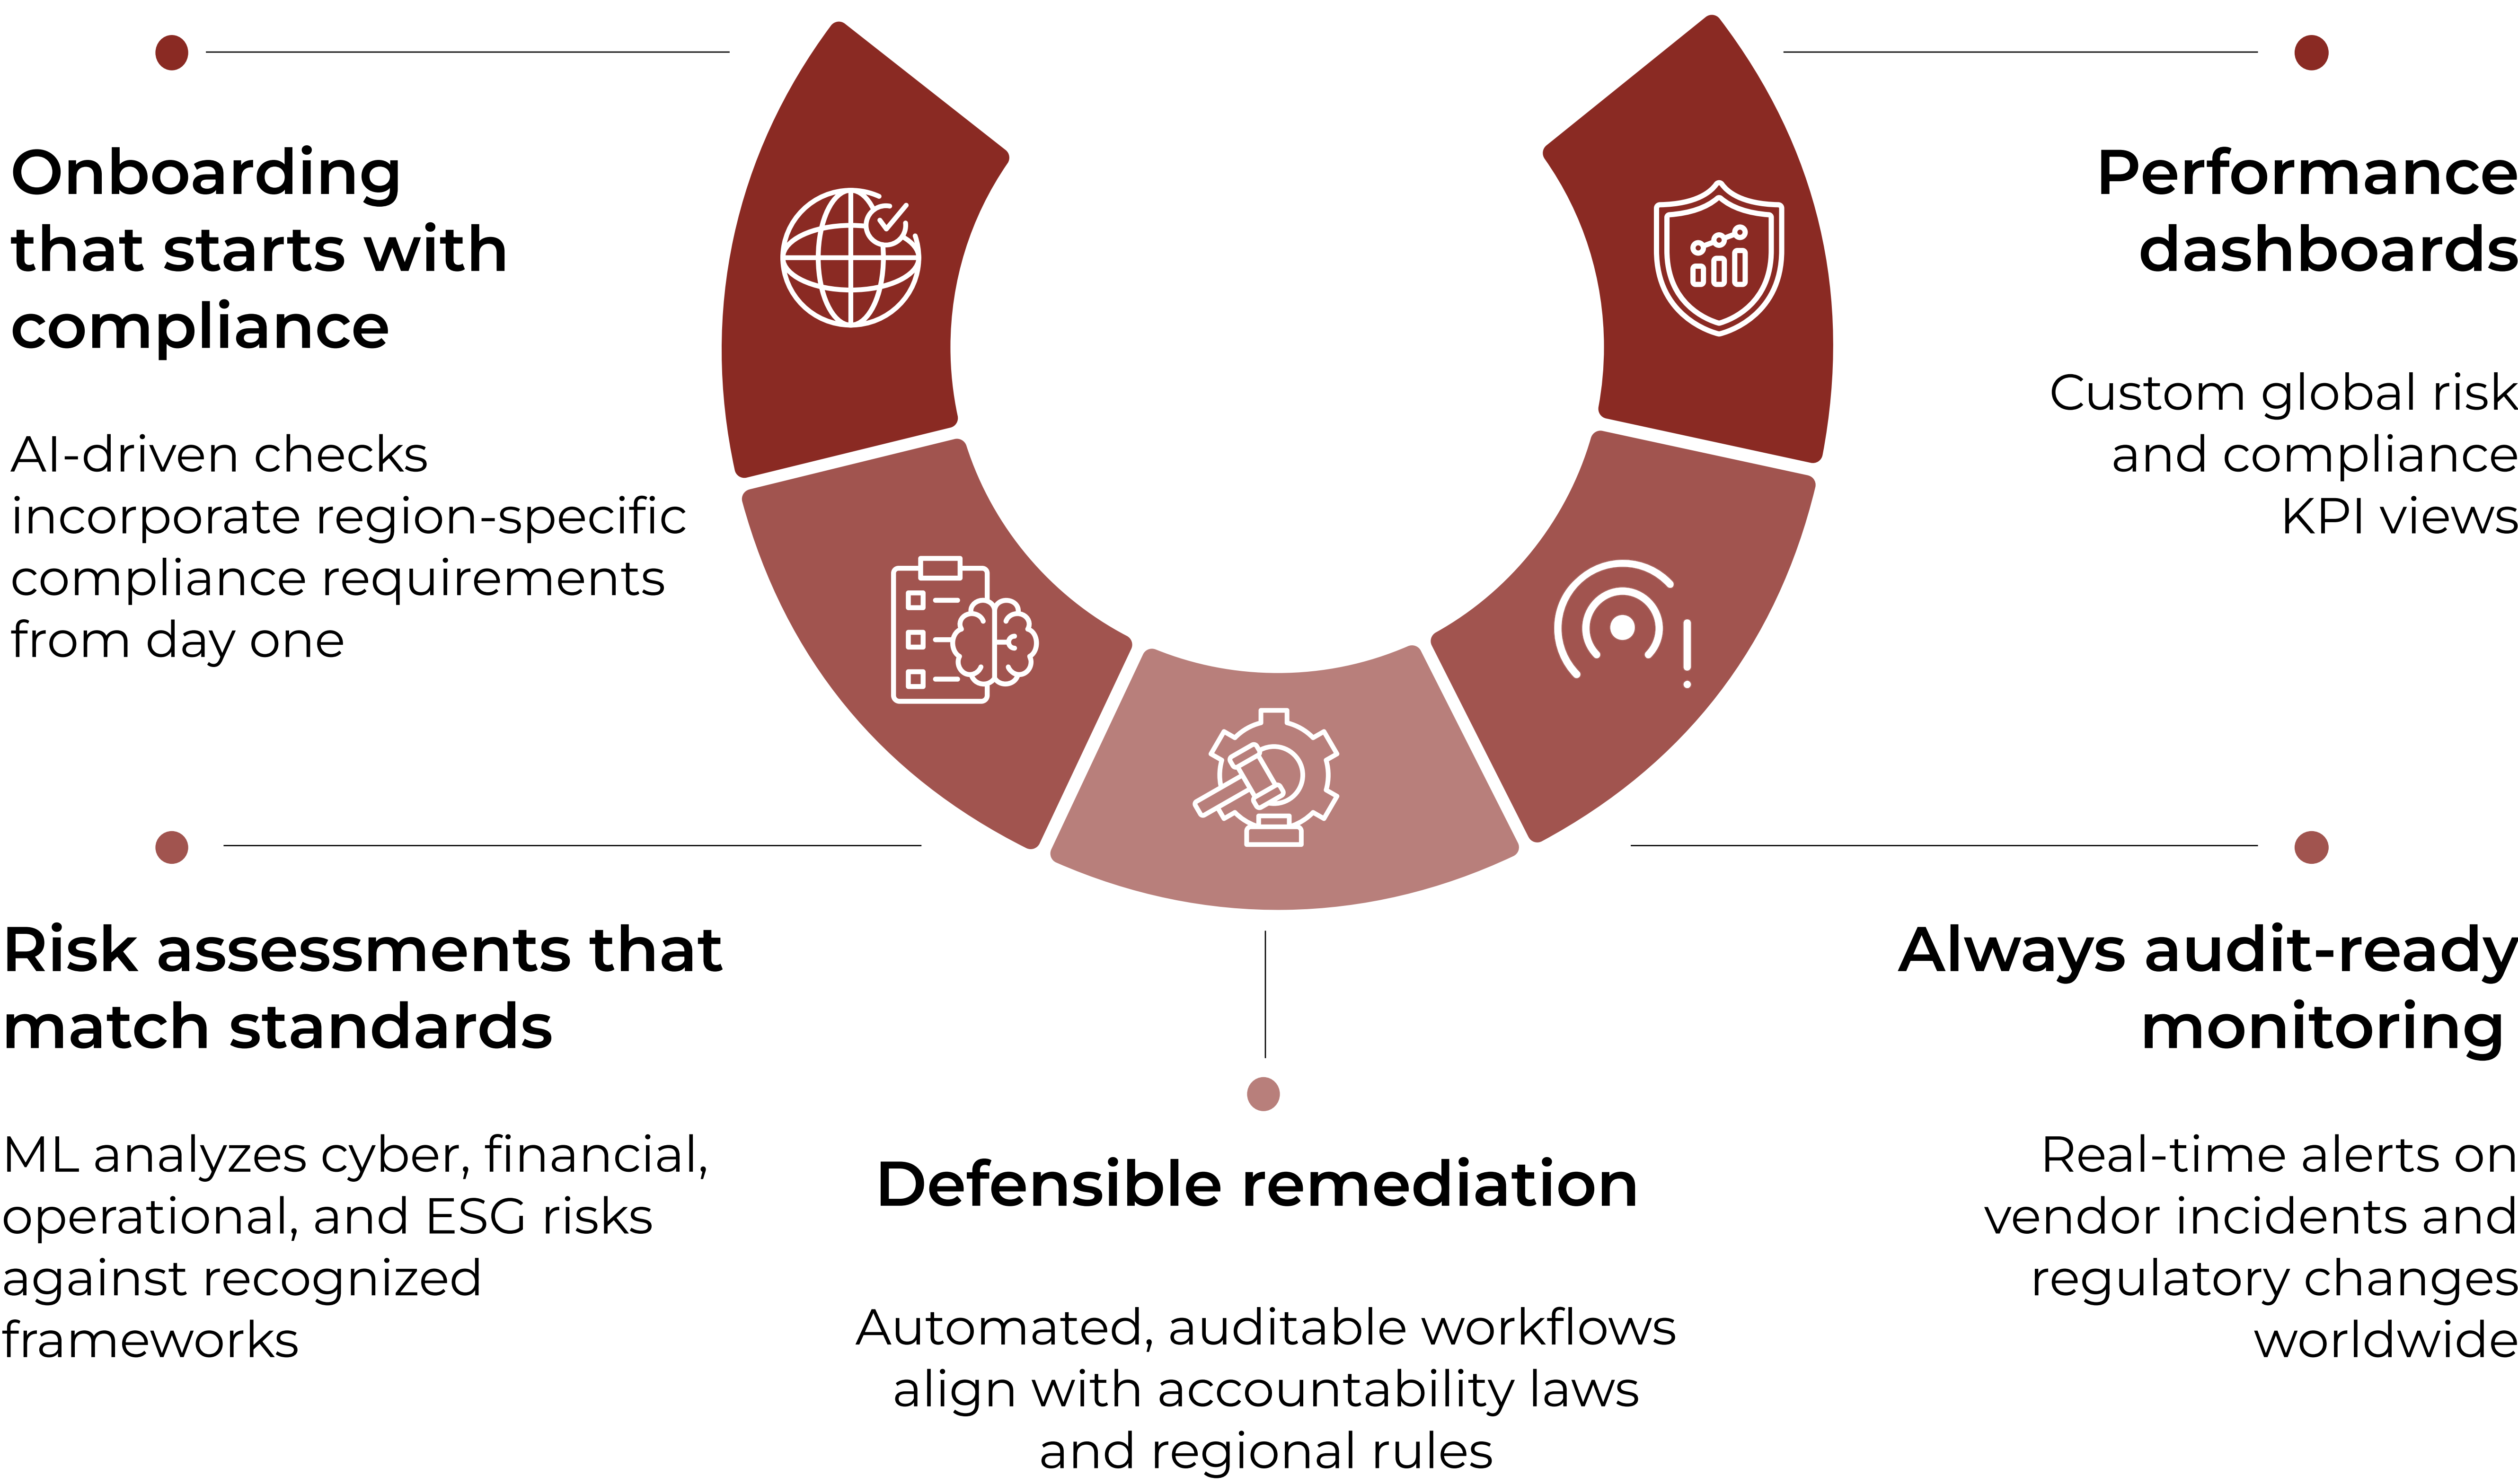

Regulations like GDPR, HIPAA, DPDP, and PCI DSS define how organizations manage third-party relationships. As these requirements grow tighter worldwide, blind spots in vendor oversight quickly turn into risks. What used to be a yearly checklist is now a continuous obligation, scrutinized by regulators, auditors, and customers alike.

## **ComplyScore® offers a smarter way forward.**

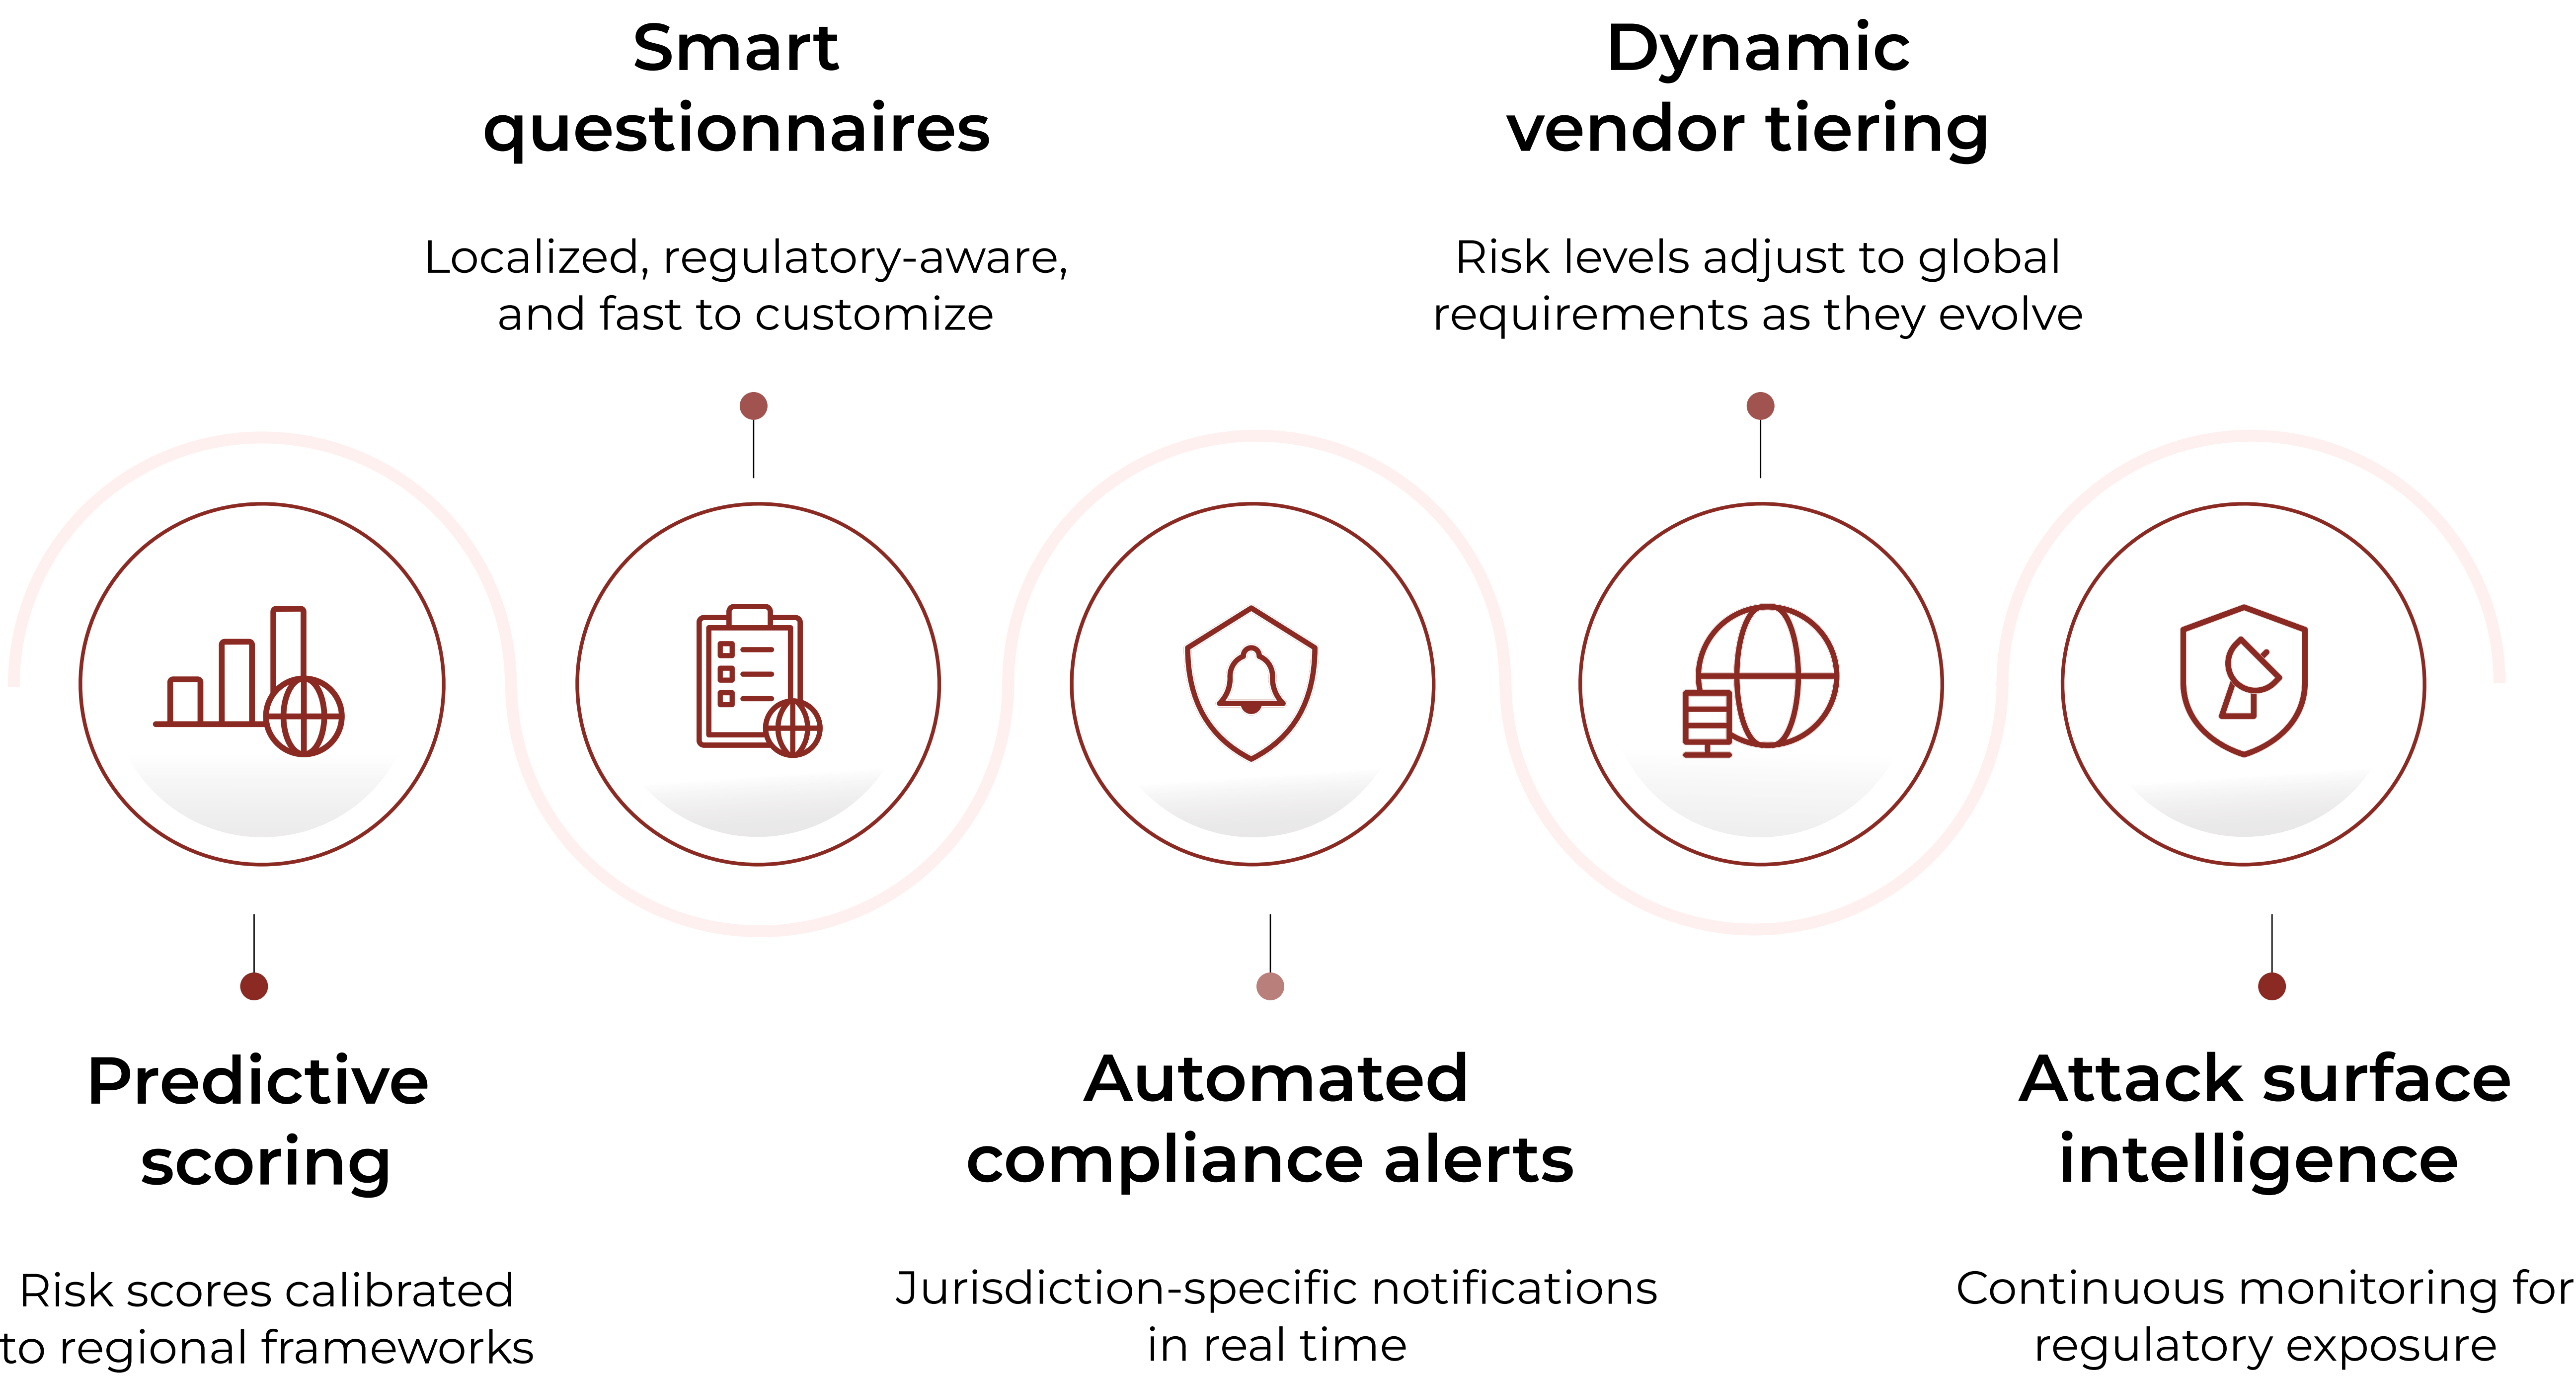

Its AI-powered platform weaves regulatory compliance into every stage of third-party risk management. From vendor onboarding to real-time monitoring, it keeps your program audit-ready, globally aligned, and ready for regulatory scrutiny.

# End-to-End Compliance Workflow

## Key AI-Driven Capabilities

## Responsible AI That Meets Oversight Standards

---

### Transparency and Explainability

Clear, feature-level attribution of risk factors ensures trusted audits

### Bias and Fairness

Fairness audits with SME input deliver consistent outcomes across regions

### Human-in-the-Loop

Human oversight at key steps drives regulatory accountability

### Continuous Monitoring

Global drift and bias dashboards support sustainable, adaptive detection

### Data Privacy and Security

Jurisdiction-aware encryption meets GDPR, DPDP, HIPAA norms

## Quantified Compliance Outcomes

---

**4-6X**

**faster vendor  
onboarding**  
with compliance  
built in

**2-4X**

**more risk  
assessments**  
aligned with  
frameworks

**40%**

**lower audit  
preparation effort**  
through automated  
mapping

**2-3X**

**faster compliance  
report readiness**  
compared to  
industry average

# Global Regulation Coverage at a Glance

With automated compliance mapping, ComplyScore® flags, maps, and tracks gaps against regional frameworks, minimizing cross-border compliance risk and reducing audit effort.

## Regional Regulations

**EU**  
GDPR

**US**  
HIPAA, CCPA,  
GLBA, SOX,  
FedRAMP

**UK**  
Data Protection  
Act 2018

**India**  
Digital Personal  
Data Protection  
Act (DPDP)

**Canada**  
PIPEDA

## International Standards

ISO 27001  
  
NIST Cybersecurity Framework

## Industry-Specific Mandates

SOC 2 | PCI DSS  
  
MAS TRM (Singapore)

Stay compliant with global, data privacy, and data residency requirements.
